

Message from our Board of Directors June 17 2020

We are pleased to see that our region has moved into Stage 2. We are also pleased to announce that the Town is working with us to determine which fields will become available in the next couple of weeks.

House League families - we are busily working through logistics (fields, uniforms, equipment and schedules) to ensure we are ready to start games soon (once Oakville moves into Stage 3). Stay tuned! There are still a few spots open if you know anyone who wants to play house league baseball this summer! We know many summer plans opened up. Registration is first come, first served.

A's Rep or Elite families - look for more details in the coming days from your coach. Stage 2 protocols permit teams to train outdoors, with some safety limitations, and we will schedule some time for each Rep & Elite team to get out this weekend. Training will continue for a couple weeks until we can compete in games under Stage 3 protocols.

The Oakville Minor Baseball Board
